HEALTH AND SAFETY RULES

For your information, safety and enjoyment we recommend you observe the following:

1. Children must be supervised at all times by a responsible adult and boisterous behaviour must be stopped immediately. Children should not be allowed to climb or hang from the walls of the inflatable. Neither should they climb, bounce on or over the front step/safety barrier wall. Children must not climb up front of slides and must slide down feet first.
2. No shoes to be worn on the inflatable. No sharp objects (e.g. jewellery, glasses, etc.). No adults, children over 12 years old, pets or toys are allowed on the inflatable. No face paint, party poppers or silly string to be used on or near castles due to the fact that they all stain and are difficult to remove. The recommended number of children on the inflatable at any one time is 8 and should not be exceeded. It is dangerous to overcrowd.
3. No smoking, fires or barbecues to be used near the inflatable.
4. No food or drink to be allowed on the inflatable. It is advisable to use plastic cups only when a bouncy castle is in use.
5. Do not interfere with the electrical equipment. In the unlikely event of deflation, evacuate the inflatable immediately to prevent injury and damage.
6. Separate large children from small, by splitting into similar age groups.
7. **ADULT SUPERVISION IS NECESSARY AT ALL TIMES.**

Thank you for choosing Castles R Us Bouncy Castle Hire

We hope you have a great day!
